Powering Futures: Training the Next Generation

TEA supports Native students and workers in launching long-term careers in clean energy through hands-on training and educational pathways. Whether you're just getting started or growing your career, we're here to support your journey.

What We Offer:

- Installation Basics Training (IBT) with real-world project experience
- Tribal Energy Associates, Tribal fellowships scholarships & internships
- Job placement support with Tribal and industry partners
- Workforce readiness programs rooted in cultural values

Let's build your clean energy future—together.
